SELECT PROJECTS

Human Kind — UX/UI Designer, Front End Developer

February 2017 - March 2017 | Lifestyle App that Encourages Acts of Kindness

- Developed the creative brief to align the logo, colors, & general style to brand identity.
- Gathered feedback via surveys to build personas & define audience, tailoring user experience.
- Conducted SWOT analyses to better understand brand positioning for current market.
- Arranged site's content with wireframes & mockups using Balsamiq, Sketch & grid system.
- Built the responsive layout of the website using HTML, CSS, JavaScript, & jQuery.

heartbeatz — UX/UI Designer, Front End Developer

December 2016 - March 2017 | Music Player Application

- Built the responsive layout of the website using HTML, CSS, & JavaScript.
- Refactored some of the heavier Javascript DOM selectors with jQuery.
- Organized the site to be mobile responsive with CSS media queries.
- Rebranded the site with a new logo, name, & color palette according to user feedback.

Traks — UX/UI Designer, Brand Strategist

November 2016 - December 2016 | Record & Share Travel Experiences

- Defined the project's scope by prioritizing tasks and outlining MVP.
- Established user audience using surveys, user stories, & personas.
- Devised brand strategy by designing color palette, logo, & terminology.
- Formulated layout with wireframes & mockups using Balsamiq & Sketch & style guides.
- Prototyped wireframes with InVision for usability testing with primary users.
- Revised the site's design according to user feedback to create a cohesive experience.
