HTML/CSS

## WORK EXPERIENCE

---

### Product Designer @ Spotzer

*June 2017 - Present*

- Design mockups and layouts for web and mobile, focusing on conversion optimization and pleasing aesthetics.
- Draft style guides to include fonts, buttons, and logos.
- Act as the lead designer during the pilot phases of new products by defining the product matrices and QA processes, and discovering common solutions.
- Work with stakeholders to define content strategy, advising how to retain user attention and maximize conversion opportunities.
- Use HTML/CSS/JS to provide frontend UI solutions.
- Support international teams by providing training materials and guidance for new and existing products.

### UX/UI Designer @ Culture Palette

*May 2016 - June 2017*

- Drafted mockups using Balsamiq, Sketch, and InVision and presented them to stakeholders.
- Used HTML/CSS/JS to provide frontend UI solutions.
- Crafted user stories, site maps, and other informational structures through collaborative iterations.
- Designed mobile layouts, including login flows and profile areas.
- Worked with stakeholders to define product features, limitations, and deadlines.

## EDUCATION

---

### Bachelor's in Humanities @ Thomas Edison State College

*2011 - 2015*

- Majored in interpersonal communication, with an emphasis on behavioral psychology.
- Other studies included language and art courses that focused on meaning formation.
